

MICHIGAN STATE
UNIVERSITY

To: Parents or Guardians
From: Reginald M. Ronningen, NSCL Radiation Safety Officer
Date: May 3, 2006
Subject: Permission for Minors at the NSCL

NSCL and its visitors are obligated to follow federal and state regulations concerning safety. NSCL contains some areas that are restricted for safety reasons. It is NSCL's policy that visitors under the age of 18 years who enter restricted areas have parental or guardian permission to do so.

We are obligated to instruct visitors about potential safety hazards and such things as limits on radiation exposure. However, it is expected that there will be no undue hazards or risks present where visitors are allowed access.

To give permission, please complete the bottom of this letter, including your signature and the date.

DO NOT mail or fax this permission! The minor (or responsible adult) should bring it along when visiting NSCL.

Dr. Reginald M. Ronningen
Senior Physicist/
Senior Liaison Physicist
